
HS-200

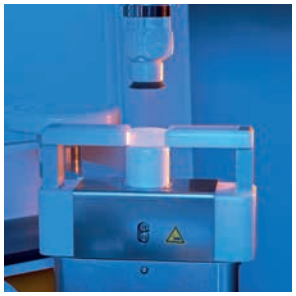
FLEXIBLE AUTOMATION FOR OPTICS MANUFACTURING

Optical Manufacturing Solutions.

satisloh®

Extra sensitive lens handling

Optional washing and turning stations



Centering station

Fully automated machine loading

FEATURES + BENEFITS

Flexibility

- Compatible with most Satisloh grinding, centering, and polishing machines
- Mobile design allows flexible use where needed
- Modular, upgradeable design with optional washing and turning stations and double vacuum suction cup

Efficiency

- Use 2 trays for highest productivity and minimized reloading – up to 408 lenses per loading cycle
- Fully automated loading with at least 250 mm/sec increases your productivity
- Fully integrated washing and turning stations simplify the process (optional)

Reliability

- Repeatability of +/- 0.1 mm guarantees smooth operation
- Very high lens handling sensitivity for less damage as with manual loading

Ease of use

- Easy docking system saves installation time
- No changeover needed- can remain at machine during manual loading

OPTIONS + ACCESSORIES

- Washing station
- Turning station
- Double vacuum suction cup

TECHNICAL INFORMATION

Dimensions (w x d)	1100 x 700 mm (43 x 28 inches)
Reach	850 mm
Speed	≥ 250 mm/sec
Max. capacity per loading cycle	408 lenses Ø ≤ 18 mm, 2 trays
