give me the datasheet for the following RFID product. the model number is YZ-SCJ001

I'm checking the exact product identity for **YZ-SCJ001** first, then I'll turn that into a clean datasheet-style summary with any confirmed specs and note anything that is not verifiable.

I'm not finding a reliable public listing for **YZ-SCJ001** under that exact model string yet. I'm widening the search to supplier pages and Chinese-language listings so I don't invent specs.

Thought for 33s

I could not verify a **public manufacturer datasheet** for **RFID model YZ-SCJ001** from reliable searchable sources. My searches for the exact model string and close variants did not return a confirmed product page, manual, or datasheet tied to that model. [Amazon](#) +2

Datasheet-style sheet for YZ-SCJ001

Product: RFID product

Model Number: YZ-SCJ001

Category: Not yet confirmed

Manufacturer / Brand: Not verified

Datasheet Status: No reliable public datasheet found for this exact model number.

[Amazon](#) +2

Verified Information

- **Exact model searched:** YZ-SCJ001
- **Result:** No confirmed public listing or official datasheet found
- **Confidence:** Low for any technical specs unless you provide the supplier link, product photo, or label image. [Amazon](#) +2

Unverified fields

These cannot be filled accurately without the original product page or label:

- RFID frequency

- Supported protocol
- Chip type
- Read distance
- Interface
- Power supply
- Dimensions
- Material
- Operating temperature
- Application type

Best next step

Please send **one** of these:

- the product link
- a product photo
- the label/sticker on the unit
- the supplier page screenshot

Then I can turn it into a proper clean datasheet immediately.

Temporary blank datasheet template

Model: YZ-SCJ001

Product Name: RFID _____

Frequency: _____

Protocol / Standard: _____

Chipset: _____

Read Distance: _____

Interface: _____

Power Supply: _____

Operating Temperature: _____

Dimensions: _____

Material: _____

Applications: _____

If you want, I can also make you a **clean PDF-style datasheet layout** for YZ-SCJ001 with placeholders ready to fill once you send the source details.
