1. FOREWORD

We are all aware that air, water and noise pollution as well as viruses/bacteria which reside around us are responsible for many acute as well as chronic diseases. Big cities and towns are surrounded with pollutants due to industrial development and urbanization. You may think that you are safe at home. But that is not true! You may be surprised to know that even your cleanest home is no longer a safe abode and is surrounded with invisible viruses/ bacteria. Removing all these viruses/ bacteria which reside around us is not possible even after cleaning our homes. All these outdoor pollutants and indoor viruses/ bacteria affect the health of all the members of the family, eventually making them sick.

In this era of jet-speed, we cannot afford frequently getting sick and staying at home which hinders our progress. We also cannot afford long medical prescriptions because of the increasing prices day-by-day. We cannot afford bearing pains while suffering from any disease.

Everyday new research & developments are being made for curing diseases. But this ultimately results into adding more & more drugs to our body. We are all aware of the side effects of the antibiotic medicines. So it becomes necessary to avoid all those diseases, antibiotics and its side effects.

For curing these diseases, Dr. Royal Rife and Dr. Hulda Clark have suggested an alternative method of treatment which has been discussed in the next topic.

2. INNOVATION MADE BY DR. ROYAL RIFE & DR. HULDA CLARK

A great innovation has been made by Dr. Royal Rife and Dr. Hulda Clark after many years of research and case-studies on humans. According to Dr. Hulda Clark, lack of exercise, vitamin deficiencies, hormone levels or anything else cannot be the cause for many diseases. She has found that we are facing mainly two health problems and the remedies for it are as under:

Problem	Remedy
Pollutants	Avoidance
Parasites	Electronic and herbal treatments

She has proved that each of the bacteria, virus and parasite can be removed through a definite frequency. If our body is subjected to these set of frequencies for a particular disease, we can kill all the unwanted bacteria, viruses and parasites and be disease free!!

She has also invented an electronic device i.e. **Frequency Generator** to use electricity to kill bacteria, viruses and parasites. She has found this practice very useful for most of the diseases; including Corona, HIV and Cancer. The most amazing thing

about this practice is that it doesn't add a single drug to our body and thus sets us free from any side effects thereafter.

3. WHAT IS A FREQUENCY GENERATOR?

You might be eager to know about the 'Frequency Generator' and how it helps us in living a better life without taking medicines. How can we kill any unwanted bacteria, viruses or parasites residing in our body through a Frequency Generator? Here's a very simple answer...

A Frequency Generator is a fully automatic unit based on the frequencies given by Dr. Royal Rife and as per the book "The Cure for All Diseases" by Dr. Hulda Clark. It is an electronic device through which we can grasp frequencies in our body to cure the diseases. The Frequency Generator emits a particular frequency/ set of frequencies to destroy the virus/ bacteria causing various diseases. You can kill those bacteria and be disease free in minutes, not days or weeks as antibiotics require.

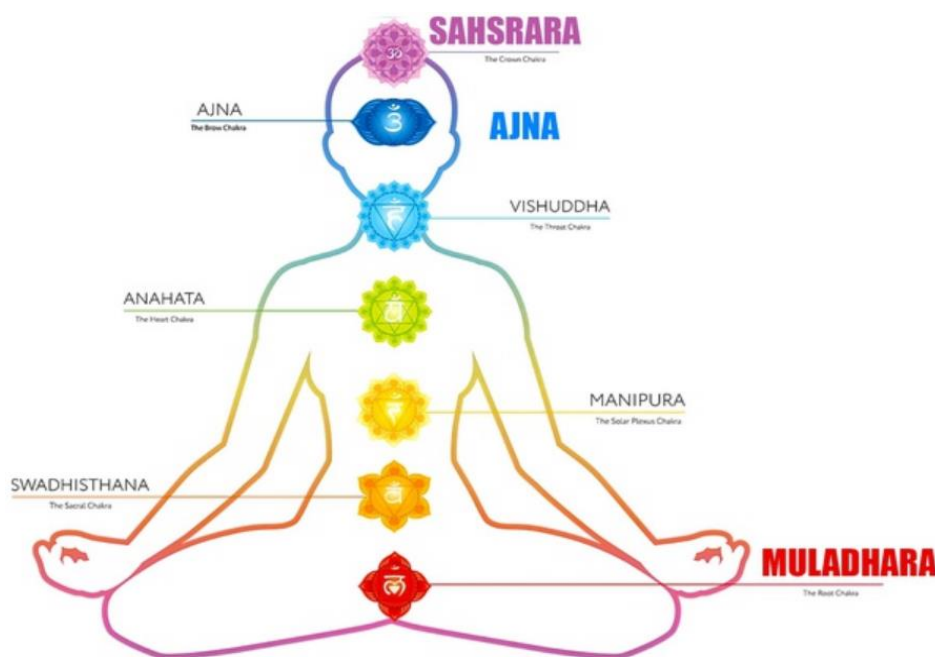

4. NO SIDE EFFECTS

Frequency Generator is safe without any side effects. Also it does not interfere with any treatment you are undergoing. You may continue taking any other treatment like antibiotics, homeopathy etc.

5. PME FREQUENCY GENERATOR

We have developed this unique device with the Brand name “***PME Frequency Generator***”. It is designed to deliver consolidated frequencies established by both Dr. Royal Rife and Dr. Hulda Clark, thereby making it more useful to the patients. The PME Frequency Generator contains 680 pre-installed diseases.

Version 20.6.2 of PME Frequency Generator also contains frequencies for balancing the SEVEN CHAKRAS which are the vital energy centres in the body. ‘Chakra’ is a Sanskrit word which means ‘wheel’ and here chakras are the wheels of free flowing energy in the body which vibrate with energy. These chakras have their own vibrational frequency and are catalysts of healthy human body functioning. Scientifically, a chakra is a place connecting important glands and proper functioning of these important glands leads to a healthy life. A chakra blockage and imbalance in one or several of the seven chakras can initiate mental, emotional and physical ailments. The seven chakras are as shown below:

MULADHARA (Base or root chakra)	This chakra represents body foundation and it is present at the base of the spine. The balancing of base chakra makes one feel confident to withstand challenges.
SWADHISHTHANA (Sacral chakra)	It is located in the lower abdomen below the navel and the chakra governs creativity, emotions and sexual energy.
MANIPURA (Navel chakra)	This is also known as the solar plexus chakra and it controls self-confidence, will power and self-esteem.
ANAHATA (Heart chakra)	The heart chakra is the bridge between the lower chakras (associated with materiality) and upper chakras (associated with spirituality). This chakra influences a person ability to give and receive love from others and themselves.
VISHUDDHA (Throat chakra)	The throat chakra gives voice to the heart chakra and controls ability to express clearly and communicate seamlessly.
AJNA (Third eye chakra)	This chakra controls the ability of intuition, imagination and wisdom. It opens up perceptive psychic ability.
SAHASRARA (Crown chakra)	It is located at the crown of head and represents ability to establish spiritual connection.

6. SPECIFICATIONS

- Multiple frequency setting from approximately 1 Hz to 999.999 kHz
- The unit is designed to deliver each frequency doze for 3 minutes

- **Size:** 150mm x 90mm x 25mm
- **Weight:** 200g
- Colour Graphical LCD
- Selectable buzzer option
- 3 Rechargeable batteries – AAA size
- Timer and Battery Charging LED indicators

7. ACCESSORIES FOR THE FREQUENCY GENERATOR

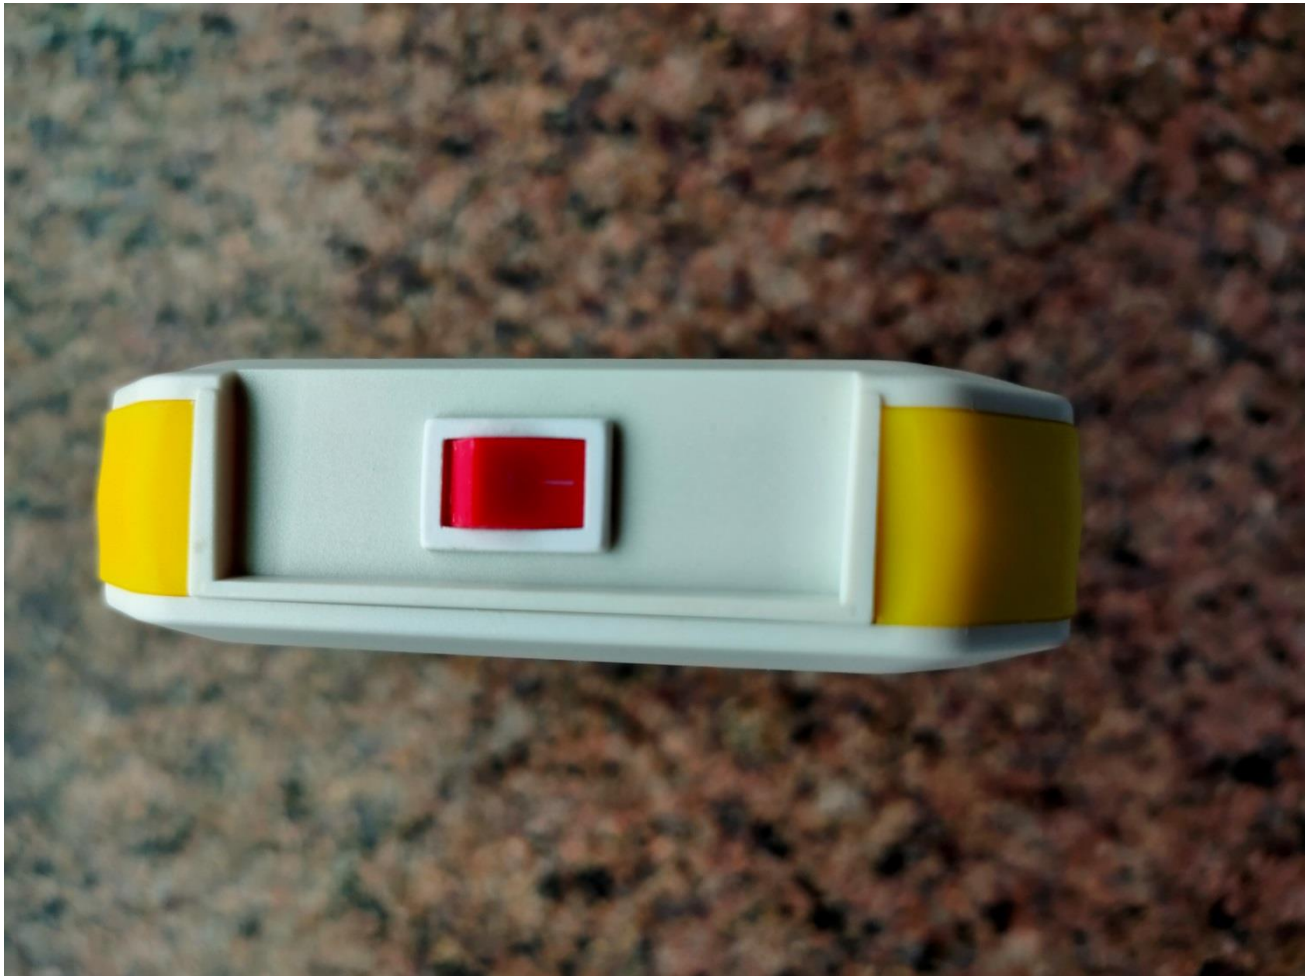

- Frequency Generator Model PME 2020.
- Adaptor charger 110-230V with an output of 12V
- 3 cells included in the Battery compartment
- A pair of metal rods and wrist straps
- Connector to connect metal rods and the Frequency Generator
- User Manual
- Storage case

NOTE: -

- If the unit is charged for 2 hours, it is capable of operating up to 6 hours.
- It is advisable to avoid charging for more than 2 hours.
- The battery generally functions for up to 2 years. After the battery expires, open the 4 screws in the Battery compartment on the Back Panel and replace the 3 AAA sized rechargeable Batteries

CAUTION: Do not replace the rechargeable Batteries with Alkaline Batteries. If you do so, DO NOT CHARGE the unit while the Alkaline Batteries are present in it, else the unit will explode!

8. PANEL AND KEY DETAILS

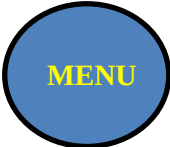

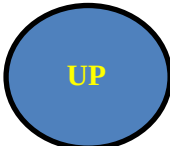

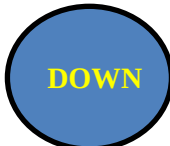

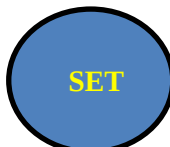

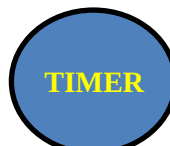

- There is an ON/OFF switch at the top of the unit.
- The unit has 5 keys with 2 indicators.
- Display – When the unit is turned On for the first time, the unit shows a disease name followed by its Frequency, subsequently followed by the Timer status – On/Off.

Bottom panel details

- The bottom side of the unit has 2 sockets – The left one for 12V power adaptor and the right one to connect the wire output to the metal rods through RCA port.

9. CONTROLS

KEY	FUNCTION
	Menu key is used to select mode of operation. There are 4 modes of operation: 1. Pre-installed disease mode 2. Frequency mode 3. Favourite mode 4. Programmable mode Pressing the Menu key once selects one mode; while pressing it another time selects the next mode in sequence. Menu key is also used to ON/ OFF the buzzer after selecting any particular disease in any mode only after the Timer key is made ON
	To navigate in reverse alphabetical order in “Pre-installed disease” mode To increase the value of the red highlighted numeric digit by one in “Frequency” mode To move upwards in the “Disease” mode To ON the buzzer
	To navigate in alphabetical order in “Pre-installed disease” mode To decrease the value of the red highlighted numeric digit by one in “Frequency” mode To move downwards in the “Favourite” and “Disease” mode To OFF the buzzer
	To see the list of diseases in alphabetical/ reverse alphabetical order in “Pre-installed disease” mode To select a digit in the “Frequency” mode. The selected digit gets highlighted in red. By pressing the Set key, the cursor moves in forward direction To set the value of desired frequencies in “Disease” mode
	To ON or OFF Timer. When the Timer is ON, frequency dose commences from the device output through the metal rod.
GREEN LED	Indicates that the “Timer” is ON
RED LED	Indicates that the device is charging. Once fully charged, it shall turn Off on its own

10. HOW TO USE *PME* FREQUENCY GENERATOR

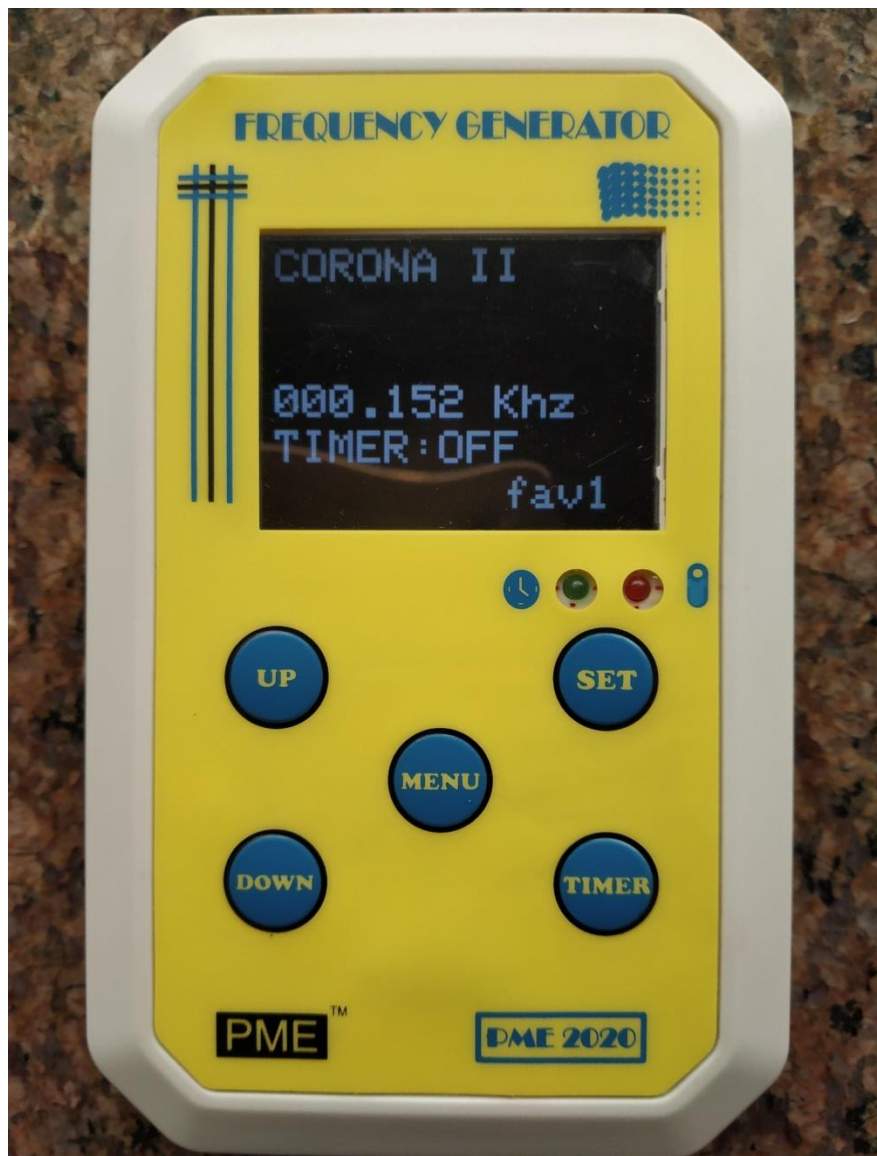

- First of all, set up the accessories of the frequency generator. Insert the metal rods in the main unit of the frequency generator.
- Press the switch at the top of the unit to start the frequency generator.
- Press the “Menu” key to select the mode of operation.
- Select the desired disease as per requirement and hold the metal rods tightly in each hand.
- Press the “Timer” key to start the frequency dose. This turns On the green LED and frequency starts flowing from the generator to your body through the metal rods. The green LED turns Off when the frequency flow stops.
- Buzzer can be used at the user’s discretion while taking the frequency dose. Press the “Menu” key after the “Timer” key is made On (after any disease or frequency dose is selected) and press the “Up/Down” key to “On/Off” the buzzer respectively. Once the user turns the buzzer On, it turns Off automatically when the frequency flow stops.
- To exit any mode, press the “Menu” key.

Important: One would hardly feel anything while taking the dose. Sometimes a tingling sensation is felt. The Green LED turns Off automatically and the buzzer would also stop once the set frequency dose finishes.

11. MODES OF OPERATION

PME Frequency Generator is designed with four modes of operation. These modes can be selected through “Menu” button. The modes have been explained as below:

1. Pre-installed Disease Mode -

In this mode, the user can select a particular disease and the Frequency Generator has a set of already programmed frequencies for curing it. There are predefined set of frequencies for 680 diseases.

- To execute this mode, select a particular disease and press the “Timer” key. This turns On the Green LED.
- All the frequencies present in any particular disease shall be executed 3 minutes each.
- To skip any particular frequency, press the “Up” key to move to the next pre-programmed frequency of that disease. Remember that this feature does not support “Down” key to go backwards on earlier frequency.
- Buzzer can be used if required.
- *PME* Frequency generator has all the diseases lined up in alphabetical order. The frequencies for balancing the SEVEN CHAKRAS have been placed at the end of all diseases.

Making your disease search easy through an example:

To search for ‘Fever’ disease in the ‘Pre-installed disease’ mode,

First of all we assume that the screen is currently showing the disease ‘Abdominal Inflammation’,

- Press “Set” key once and then press “Down” key. The screen will immediately show the disease whose first letter is ‘B’ while skipping the other diseases whose first letter is ‘A’. Keep on pressing the “Down” key until you reach the disease with first letter ‘E’ i.e. ‘Efacial Paralysis’.
- Press the “Set” key again and then press the “Down” key. The screen moves to the next disease in sequence starting with the letter ‘F’ i.e. ‘Fatigue General’. Then keep on pressing the “Down” key until you reach ‘Fever’.

Note:

While searching for a disease, user can use both “Up/ Down” keys to move in reverse alphabetical/ alphabetical” order respectively.

2. Frequency Mode –

In this mode, the user can set the desired frequencies manually from upto 1 Hz to 999.999 kHz and take the dosage for 3 minutes by starting the Timer. Buzzer can also be set if required.

How to set frequencies in frequency mode:

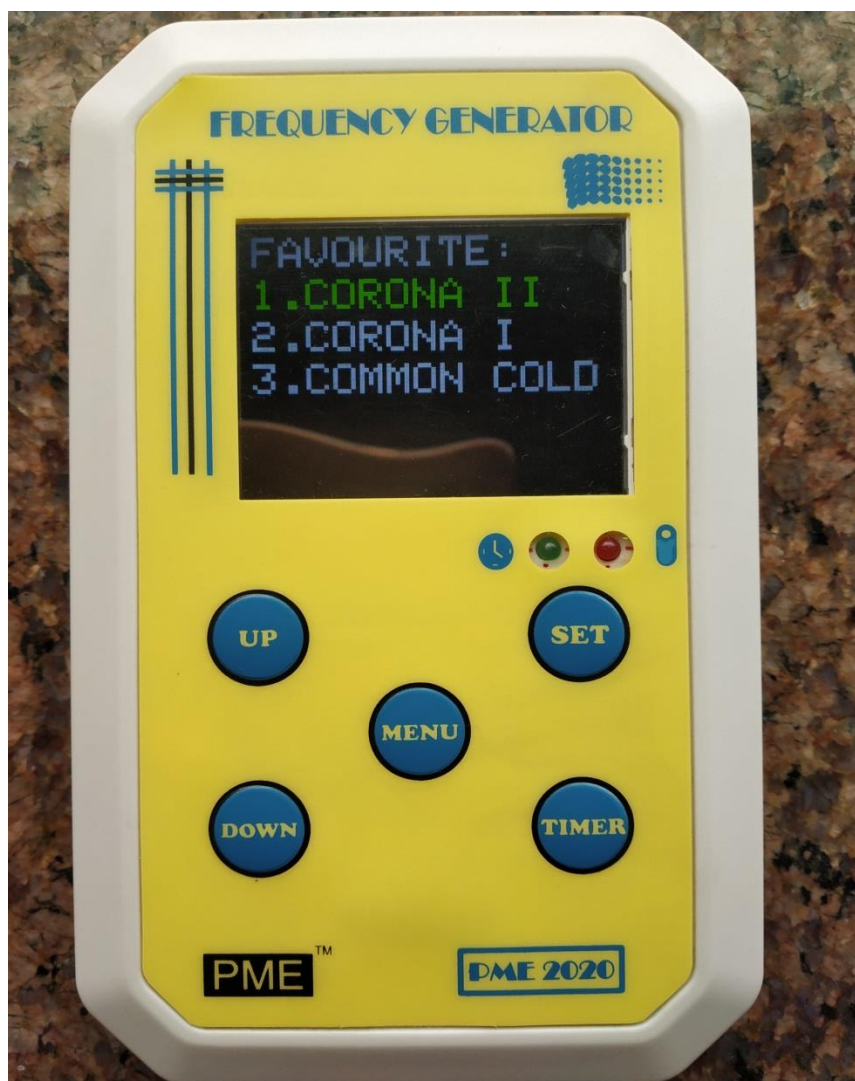

- Press the “Set” key. This would select the left most digit by highlighting it in Red.
- Press “Up/ Down” key to increase/decrease the value of red highlighted numeric digit by one respectively.
- Press the “Set” key to select the next right hand side digits sequentially.

PME Frequency Generator is designed to give frequencies in kHz i.e. in multiples of 1000Hz. The formula for converting frequencies given in Hz is, $1000 \text{ Hz} = 1 \text{ kHz}$.

For example, to set 9 Hz, set the display at 000.009kHz. To set 99 Hz, set the display 000.099 kHz. To set 999 Hz, set the display at 000.999 kHz.

Likewise, you can set any desired frequencies.

3.Favourite Mode –

PME Frequency Generator allows the user to set up to 5 diseases from the pre-installed diseases in the Favourite list. This enables easy access to the frequently used diseases by any user.

How to set a disease as ‘Favourite’

- Select any disease from the “Pre-installed disease” mode first.
- Press the “Up” and “Down” key together to copy the disease in Favourite Mode.
- To delete a disease name from this list, select the disease and press the “Up” and “Down” key together in the Favourite Mode.

- Please note that in this mode, the “Up” key does not work to select the favourites.
- After you start taking frequency dose of any disease in the list of ‘Favourite’, the next disease in the list starts automatically.

4. Programmable Mode –

This mode enables the user to program 5 new diseases of their choice with a set of up to 10 new frequencies each. Thus, up to 50 more frequencies can be added.

- In this mode, the selected disease number appears in RED Colour
- Press the “Up/Down” key to select a particular disease number
- In the desired disease number, press the “Set” key to open the list of frequencies.
- Use “Up” & “Down” key to select the frequencies.
- Press “Set” key again to assign frequencies in kHz. Any frequency from 1 Hz to 999.999 kHz can be set.
- After programming a particular disease, select the disease and press the “Timer” key to start the frequency dosage. To select a different disease, press the “Timer” key to turn Off the current frequency dosage and then press the “Menu” key.

12. HOW TO RECHARGE?

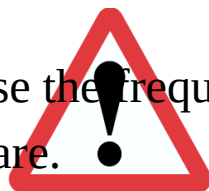

PME Frequency Generator (Ver.-20.6.2) has 3 internal 1.2V rechargeable batteries. To recharge the unit, plug-in the adaptor with the adaptor pin present on the bottom side of the frequency generator. The Red LED remains On when the frequency generator is charging. Charge the Frequency Generator for 2 hours. If the unit is charged for 2 hours, it is capable of operating up to 6 hours.

13. WARNING!

PME frequency generator should not be used by pregnant ladies and people wearing pacemaker.

- Always seek the advice of a medical professional in case of any health issues.
- Do not overuse or abuse the frequency generator.
- Handle the unit with care.
- Do not use whilst in water.
- Don't use inflammable sprays for cleaning the frequency generator. A dampened cloth in a weak soap solution may be used for cleaning.

14. TROUBLE SHOOTING

Trouble	Possible Reason	Try and fix by
Frequency Generator doesn't start and the display doesn't show anything on pressing the Power switch	The batteries may be low.	Insert the adaptor pin with the frequency generator, attach the adaptor with electric plug and switch-on the plug to recharge the same upto 5 hours and then try again.
Frequency Generator doesn't start on pressing Power switch even after charging.	The batteries may have lost its shelf life (this can happen only when the batteries are used for a long time i.e. one year or more, otherwise the problem can be any other)	Replace new batteries 3 Nos.- Rechargeable of 1.2 V (easily available at any nearest electric shop), charge the Frequency Generator and then try again.
